Unit 13 – Website Development

Assignment 2 – Create a Design
Abraham Dieudonne Ndinga | 1280102

| Tutor: [TMC] Andrew Jepson|

Purpose

Camp Canada; the purpose of this website is to advertise Camp Canada online, to showcase what the opportunities they give, to allow users to contact and register and apply with them.

User Requirements

For this site, the user requirements would be:

A **home page** (index page) that links to all the other pages of the website, allowing the users to allows have a return point if any issues occur.

- **Images** of the Camp Canada/ or Relative Camps to give the users visuals on what to expect, attract the eye & give life to the site.
-
- **Hyperlinks** to different pages of the site and to social media sites.
-
- **Contact Information** displayed on the site so that clients that are interested could call up to company to ask questions and more…
-
- **Forms** such as applications & registrations. This is because the company wants the site to advertise jobs roles therefore you need these forms to allow users to apply for these jobs.

The website also requires 8 pages:
- Home page
- About page
- The Programmes page
- Travel page
- Contact page
- Login & Register page
- FAQs page
- Blogs page

Purpose and Requirements

- Requirements:
  - *At least eight linked pages.*
  - *At least one table.*
  - *There should be a consistent use of text, colour schemes and page styles in all of the web pages.*
  - *The website should be interesting and have at least four suitable, different original and/or ready-made, embedded multimedia/digital assets, e.g. digital animation, digital graphics, digital audio, digital video.*
  - *The website should contain some interactive features, e.g. a feedback form to collect customer enquiries.*
  - *The website should have at least two external hyperlinks to other interesting webpages.*
  - *Each web page should be internally linked, with easy-to-navigate menus.*
  - *The website should contain a link to an online forum.*
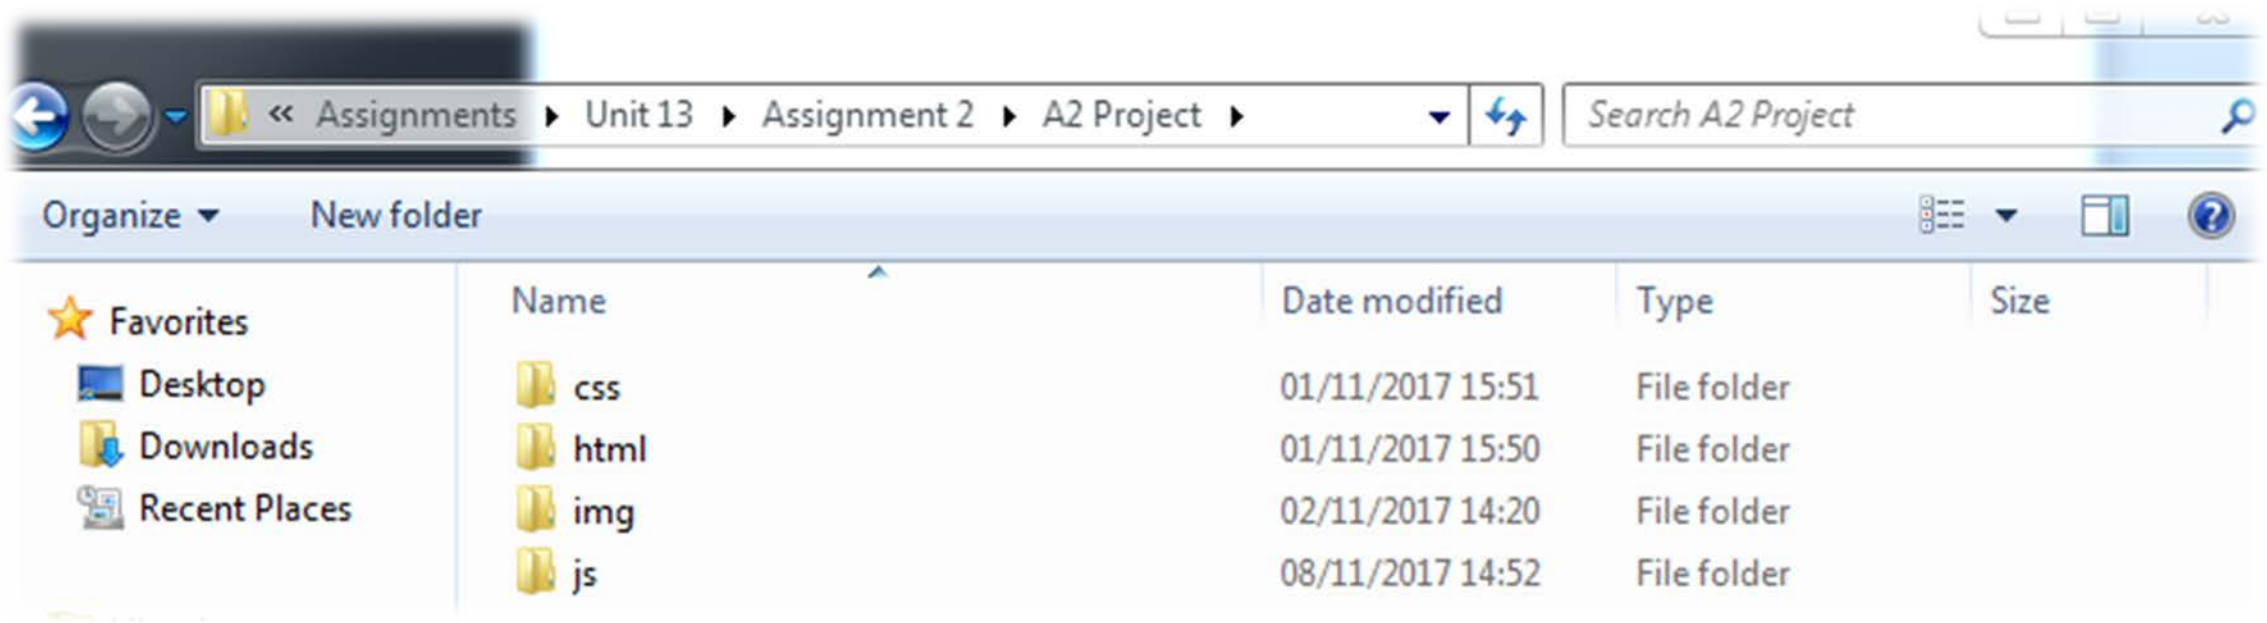

All images will be stored in the folder "img",

All CSS files in the CSS folder,

All web page files (HTML files) in the HTML folder,

All JavaScript files in the js folder.

I will do this for organisation, structuring the folders like this allow me & other to find files much faster.

ABOUT CAMP CANDA

We offer incredible opportunities for people from all around the world to work and travel in Canada.

You can earn up to $1900 CAD and have a great time in one of the amazing Canadian Camps we work with. It's what Camp Canada is all about. You just have to be aware of the moose, maple syrup and mounties!

Those who apply with Camp Canada can expect to work in one of many residential camps all across Canada.
If you have a sense of adventure then applying with us means you could be working as an outdoor wilderness leader, if not there are other positions including swim instructors, horse riding instructors or dance teachers amongst many others!

It really is the perfect way to spend a summer abroad or as part of a gap year abroad. Remember you don't even need to be a student so we welcome applications from everyone and from all parts of the world.
Camp Canada offers you the chance to live, eat and work with children, teaching sports, working in the great outdoors and changing lives forever! There's also the chance to travel after your work contract finishes so you can explore Canada and experience it's culture.

CAMP CANADA

WHY CANADA CAMP?

Why should you choose Camp Canada? Well that's simple! The staff at HQ work very hard to get you placed and out to Canada to have the summer of a life time. We ensure that your journey to get to Canada is a fun and easy one. We work to make you feel like part of the Camp Canada family and not just a mindless number we send off because that is what you will be, a member of the family who enjoys #FreeBiscuits whenever you see us.

THE POSITIONS

There are three positions you can apply for at a Camp in Canada. They are **general camp counsellor**, **activities camp counsellor** and **support staff**. While the counsellor positions are the most popular and have you working closely with the children, all positions need you to be highly energetic and outgoing. Theses positions are great opportunities to boost your skills, add international work to your CV and to immerse yourself in the Canadian culture.

The Positions

There are three positions you can apply for at a Camp in Canada. They are general camp counsellor, activities camp counsellor and support staff. While the counsellor positions are the most popular and have you working closely with the children, all positions need you to be highly energetic and outgoing. Theses positions are great opportunities to boost your skills, add international work to your CV and to immerse yourself in the Canadian culture.

The Application Process

Applying to Camp Canada is quite simple and throughout the process we are there to help you through. If you have any questions along the way one of our staff members are always ready and willing to answer them.

Stage One: Application and Interview

CAMP CANADA

HOME   ABOUT   THE PROGRAMMES   TRAVEL   CON

When clicked, drop down container slides down and bottom borders of primary container shape shift from rounded to straight (90°)

Stage One: Application and Interview

To apply to the programme you'll need to make the first stage payment for £69, this shows commitment to the programme and covers the cost of the interview.. Once this payment is made, you'll receive an application. After you have complete your application and returned it back to the team, we'll review your application and, if you are a rock star on paper, invite you to do an interview with either a member of staff or your local campus manager. These interviews are informal, but informative meetings that allow us to get to know you and your skills better so that we can ensure you have the strongest application possible and that we have the correct information about you to match you up with the right camp.

Stage Two: Documentation

Stage Three: Placement & Visa

Orientation

TYPES OF CAMPS

HOME   ABOUT   THE PROGRAMMES   TRAVEL   CONTACT

TYPES OF CAMPS

Traditional

Most camps in Canada are traditional camps. These have a broad focus and campers will be doing a varies of activities such as water-sports, arts and crafts and outdoor activities.

Underprivileged

Camps that cater to underprivileged youths. Theses camps offer the same activities and experience as traditional camps.

Girl Guides

These camps cater to young girls in the Girl Guide movement. Most campers and staff will live in platform tents.

Why should I go through Camp Canada?

Making arrangements to work at a camp is challenging. The visa can be confusing, it is difficult to find camps that are willing to hire international staff and it is challenging to determine which camps will provide the necessary support and benefits to help you succeed at camp. Camp Canada will provide you with a face-to-face interview and a pre-arranged camp placement, which we think will suit your skills, personality and what you hope to get out of your summer adventure! In addition, our partner company, will help you get settled in Canada and provide support and emergency assistance during your work placement. Finally Camp Canada is run by the lovely people at AmeriCamp so you are guaranteed first class customer service and of course #freebiscuits

10 Great Maple Syrup Facts!

20 Facts About Canada!

Canadian Natural Wonders: Explore Wild Canada!

So you've had a life changing summer working at a fun filled Canadian summer camp. Now it's time to take off and explore the rest of beautiful country. Whether you want to explore nature, have a wild adventure or just see some cool creatures, Canada has it all and more. Here's some Canadian natural wonders we think you need to see to complete the summer of a lifetime!

Aurora Borealis

It's guaranteed you will never see anything quite as beautiful as the Aurora Borealis. Also known as the Northern Lights, this mystical phenomenon has had people from all corners of the globe travelling to see it for themselves. In Canada, they are lucky enough to have several view points of the Lights in the Sky, such as British Columbia and Albera. Surely it's one for the bucket list.

Primary Colours used:

Red, **White** & **Black** of different shades

Secondary Colours used:

Blue, **Grey**, **Pink** & **Yellow** of different shades

❑ Since the background colour consists of mostly white, the text will be coloured **Black** to stand out.

❑ **Red** & **White** are used in the background to imitate /or resemble the Canadian flag.

This is why the red & black <u>pattern of the background will be arranged</u>; **Red, White and Red**.

USE OF CSS FILE

I will use the same css file throughout all of my webpages this way all colour schemes and styles can remain the same throughout the pages.

USE OF HTML FILE

For pages with similar layout I will simply reuse the layout from one already made page and customize the content within the page.

Doing this will save time as I wouldn't need to waste my time reprogramming the layout form scratch.

I will also make sure that all of my reference links in the <head> are similar to other pages

List of Hardware Requirements:

- Dell, Intel core and windows vista computer
- Operating system (Windows/Mac)
- Router
- Switch/hub

List of Software Requirements:

- Atom
- Photoshop
- Google Chrome/ Firefox

CONSTRAINTS

The constraints in the development of my website may be:

- Lack of knowledge in bootstrap – I aim to make my website as responsive as possible, however with my limited knowledge of languages I will not be able to program my website to be responsive on a lot of different display sizes like on of a phone or tablet. If I was knowledgeable in bootstrap I could program my website to be responsive with all those different displays.

- A database – I designed my website with a login & registration, however I do not have a database to host this system, this means that the act of logging in & registering will not actually function on my website. Plus even if I was to use a database host like Xampp, I do not have the basic PHP knowledge to connect my website with the database.

- Time – Fortunately and Unfortunately I have design a website with a lot of web content, this is good for the users however for me the programmer it would take a lot of time to develop, meaning the deadline set for completion may not be enough.

ALTERNATIVE DESIGN

CAMP CANADA LOGO	HOME	ABOUT	THE PROGRAMMES	TRAVEL	CONTACT	Contact Information

Text

In my second alternative if there's even more room and more development time from the first alternative after the text, I planned to insert an interactive feature (which I haven't decided yet) as a welcome to users and a comment section for users to review the website, like the contact us form I have on the contact page in my first design.

The comment section will only be available on the about page.

I also wanted to add some parallax scrolling features to my web designs if I had more development time.

The alternate design is designed to contain more images and less text, it's supposed to look heavily programed whilst actually not having as much code as the first design.

However, the reason I didn't go with this design is because I wanted to build something more challenging, plus I found the first design to be more visually pleasing as I spent more time designing it.

The first design offers more interactivity to the users as it contains a feed back form, account registration, and even Twitter tweets embed in the website.

JUSTIFICATION

In the end I decided to go with my first design as my final design. I believe this design is best because I feel it achieves most user requirements as it has:

- Eight linked pages – Home, About, The Programmes, Travel, Contact, FAQS, Apply/Register, and Blogs page

- More than one table – Login, register, and a feedback form

- A consistent use of text, colour schemes and page styles in all pages

- More than four suitable, different original and/or ready-made, embedded multimedia & digital assets like animation and digital graphics, & etc.

- Interactive features like the feedback form in the contact page, the image slider, login & registration, and more…

- More than 2 external hyperlinks to other interesting webpages

- Easy navigation

And more…

Plus each and every page meet their intended purpose.

- Home page: Welcomes and Introduces you to the website, gives hyperlinks to other webpages, and is linked to every other web pages

- About page: Informs you about the Company and gives more detail on what the company/ website offers

- The Programmes page: Informs you of the work positions

- Travel page: Informs you on how & why to travel to the destination.

- Contact page: Gives you the companies contact information's and allows you to drop feedbacks on any subject involving the website/ the company.

- Login/Apply page: Allows the user to login or create an account with the website

- FAQS page: Gives more information about the company by answering past (important) questions

- Blogs page: Allows the users to read articles that were posted on the site
